Product Description

316L SS Coil 4mm 6mm 8mm Hot Rolled Stainless Steel Coil 1000-2000mm

And industrial facilitiesIndustrial facilities developed countries using stainless steel coil can generally reach 15% - 15%, the current domestic application is still small scale. This is partly because the complete set of imported industrial equipment, stainless steel coil material statistics, on the other hand, because the domestic materials have not been used. Stainless steel coils are needed in the fields of chemical, petrochemical, chemical fiber, paper making, food, medicine, energy (nuclear power, thermal power, fuel cell).

In addition, the existing imported equipment has entered the maintenance period. With the improvement of the quality of domestic stainless steel rolling products and the development of special brand products, domestic industrial facilities in the future application of stainless steel coil will increase year by year.
