Product Description

ASTM Seamless Stainless Steel Tubing 304, 316 Ss Seamless Tubing High Pressure

304, 316 and 316L stainless steel formulas are austenitic, a term classifying the steel's crystalline structure. This structure is achieved via heat treatment at very high temperatures followed by quenching—a rapid cooling process locking the structural characteristics in place. Austenitic formulas are stronger than martensitic or ferritic steels. Ferritic steels are magnetic, have a low carbon content and are less corrosion-resistant.

Packing & Delivery

1. Who are we?

We are based in wuxi, China, start from 2021, sell to Mid East(35.00%), South America(20.00%), Southeast Asia(20.00%), Africa(5.00%), Eastern Asia(5.00%), Northern Europe(5.00%), Southern Europe(5.00%), South Asia(5.00%). There are total about 51-100 people in our office.

2. How can we guarantee quality?

Always a pre-production sample before mass production; Always final Inspection before shipment;

3. What can you buy from us?

steel sheet coil,ppgi ppgl,galvanized steel coil,aluminum steel coil sheet,stainless steel

4. Why should you buy from us not from other suppliers? Integrating the superior resources of China's steel industry, we provide customers with high-quality steel products at preferential prices, and can ensure that the goods are delivered to customers in a timely manner.

5. What services can we provide?

Accepted Delivery Terms: FOB,CFR,CIF,EXW,FCA,DDP,DDU,Express Delivery

Accepted Payment Currency: USD, EUR, CNY;

Accepted Payment Type: T/T,L/C,Credit Card,Weste
