

## 2B No 1 Ferrite Stainless Steel Sheet Metal Hot Rolled

Our Product Introduction

For more products please visit us on [metalsstainless-steel.com](http://metalsstainless-steel.com)

### Basic Information

- Place of Origin: China
- Brand Name: ShengQuan
- Model Number: 201/304/304L/316/316L/321/309/310

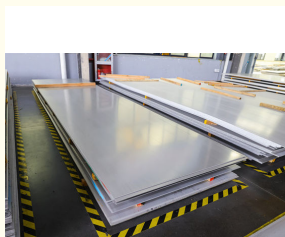

### Product Specification

- Feature: Smooth And Flat
- Magnetic Properties: Non-magnetic
- Strength: High
- Shape: Flat.sheet
- Surface: 2B No.1
- Application: Construction/ Decoration/ Industry
- Thickness: 0.5mm-20mm
- Highlight: **No.1 Stainless Steel Sheet Metal,  
Ferrite Stainless Steel Sheet Metal,  
2B Stainless Steel Sheet Metal**

## Product Description

### Product Description:

The Stainless Steel Sheet Metal is flat and has a smooth and flat surface, making it perfect for use in construction, decoration, and industrial applications. The 2B No.1 surface finish of the steel sheet is highly sought after for its clean and polished appearance. One of the most significant benefits of Austenitic Stainless Steel Sheet Metal is its non-magnetic properties. This makes it ideal for applications where magnetic interference could cause issues, such as in the medical or electronics industries. This type of stainless steel is also highly resistant to corrosion, making it an excellent choice for outdoor applications or in environments where exposure to moisture is a concern.

Whether you are building a skyscraper or a small garden shed, the Stainless Steel Sheet Metal is an excellent choice for your construction needs. Its durability and corrosion resistance make it an ideal material for outdoor applications, while its polished surface finish makes it perfect for decorative purposes.

In the industrial world, Austenitic Stainless Steel Sheet Metal is widely used for its strength, durability, and corrosion resistance. It is commonly used in the production of chemical processing equipment, food processing equipment, and medical devices.

In summary, Austenitic Stainless Steel Sheet Metal is a versatile and durable material that is perfect for a wide range of applications. Its non-magnetic properties and corrosion resistance make it an excellent choice for outdoor and industrial applications. Its polished surface finish also makes it an attractive material for decorative purposes.

### Features:

Product Name: Stainless Steel Sheet Metal

Magnetic Properties: Non-magnetic

Surface: 2B No.1

Application: Construction/ Decoration/ Industry

Shape: Flat.sheet

Thickness: 0.5mm-20mm

High-Temperature Stainless Steel Sheet

Ferritic Stainless Steel Sheet Metal

### Technical Parameters:

Product Attribute	Technical Parameter
Product Name	Austenitic Stainless Steel Sheet Metal
Strength	High
Thickness	0.5mm-20mm
Shape	Flat.sheet
Feature	Smooth And Flat
Magnetic Properties	Non-magnetic
Surface	2B No.1
Application	Construction/ Decoration/ Industry
Product Type	Industrial Stainless Steel Sheet

### Applications:

Construction

The Stainless Steel Sheet Metal is widely used in construction projects such as roofing, cladding, and facades. The high strength and durability of these sheets make them ideal for use in buildings that require resistance to harsh weather conditions and corrosion. The sheets can be easily fabricated and welded, making them a popular choice for construction projects.

Decoration

The Stainless Steel Sheet Metal is also widely used in decorative applications such as interior design, furniture, and sculptures. The smooth and polished finish of these sheets gives them an aesthetic appeal that is perfect for modern and contemporary designs. The sheets can be cut and shaped to create intricate designs and patterns, making them a popular choice for decorative applications.

Industry

The Stainless Steel Sheet Metal is widely used in various industries such as automotive, aerospace, and chemical processing. The high strength and corrosion resistance of these sheets make them ideal for use in harsh industrial environments. The sheets are also easy to clean and maintain, making them a popular choice for industries that require high levels of hygiene.

ShengQuan offers a range of models including 201/304/304L/316/316L/321/309/310 Industrial Stainless Steel Sheet Metal that are suitable for various applications. These sheets are made of high-quality materials and are manufactured to meet international standards. ShengQuan is committed to providing customers with high-quality products that meet their specific needs.
