Product Description

Product Description:

With a cable tray height range of 50mm-1000mm and a cable tray width range of 50mm-1000mm, our product offers a wide range of size options to accommodate for various cable management needs. Whether you need to organize cables in a small office or a large industrial setting, our cable tray has you covered.

Our Stainless Steel Cable Tray also comes with a variety of accessories available for purchase separately, allowing for even more customization and flexibility in your cable management system. These accessories include but are not limited to cable ties, brackets, and connectors.

The Metallic Rod Cabling System of our cable tray is designed to securely hold and organize cables, preventing tangling and damage that can occur with loose and unorganized cables. This system also allows for easy access to cables when maintenance or repairs are needed.

Our Stainless Steel Cable Tray is suitable for both indoor and outdoor applications, making it a versatile solution for a variety of settings. Whether you need to organize cables in an office building, a manufacturing plant, or an outdoor construction site, our cable tray can handle it.

In summary, our Stainless Steel Cable Tray is a durable and long-lasting solution for cable management needs. With a wide range of size options, available accessories, and a reliable Metallic Rod Cabling System, our cable tray is a versatile choice for indoor and outdoor applications in various settings.

Features:

Product Name: Stainless Steel Cable Tray

Load Capacity: Medium To Heavy Duty

Cable Tray Depth: 50mm-1000mm

Corrosion Resistance: High

Material: Stainless Steel

Durability: Long-lasting

This Steel Wire Cable Tray, also known as Stainless Iron Wiring Bridge or Inox Cable Channel, is designed for medium to heavy-duty loads and has a depth ranging from 50mm to 1000mm. Made of high-quality stainless steel, it offers high corrosion resistance and is extremely durable, ensuring long-lasting performance.

Technical Parameters:

Attribute	Value
Product Name	Metallic Rod Cabling System
Installation Method	Wall-mounted, Suspended, Etc.
Material	Stainless Steel
Cable Tray Width	50mm-1000mm
Cable Tray Depth	50mm-1000mm
Cable Tray Height	50mm-1000mm
Load Capacity	Medium To Heavy Duty
Corrosion Resistance	High
Weather Resistance	Yes
Size	Various Sizes Available
Application	Indoor And Outdoor
Product Description	Chrome Nickel Wire Mounting Tray

Applications:

Thanks to its versatility, the Stainless Steel Wire Cable Tray can be used in a wide range of settings. For example, it can be used in industrial settings where there is a lot of heavy machinery and equipment. It is also ideal for use in data centers and server rooms, where cable management is essential. The cable tray is designed to accommodate a range of cable sizes, making it perfect for any environment.

One of the key features of the ShengQuan Stainless Steel Wire Cable Tray is the fact that it comes in a variety of sizes. This means that you can choose the size that is best suited to your specific needs and requirements. Whether you need a small tray for a home office or a large tray for an industrial setting, you can find what you need with this product.

Another great feature of this product is that it is compatible with a range of accessories. This means that you can purchase additional components to enhance the functionality of the tray. For example, you can purchase dividers to separate different types of cables, or you can purchase covers to protect the cables from dust and debris.

The cable tray is available in various depths, ranging from 50mm to 1000mm. This means that you can choose the depth that is best suited to your specific needs. Additionally, the length of the tray can be customized to fit your specific application requirements.

In conclusion, if you are looking for a high-quality cable tray that is versatile, durable, and long-lasting, then the ShengQuan Stainless Steel Wire Cable Tray is the perfect solution for you. With its corrosion-resistant properties, range of sizes, and compatibility with accessories, this Chrome Nickel Wire Mounting Tray is the ideal choice for anyone looking for a reliable and effective cable management solution.
